

AIRIUS MOUNTING GUIDELINES - G400 - SAPPHIRE SERIES

FRONT VIEW

INSTALLATION NOTES:

For Heating the G400 Fan should be securely installed as close as possible to the ceiling (300mm min).

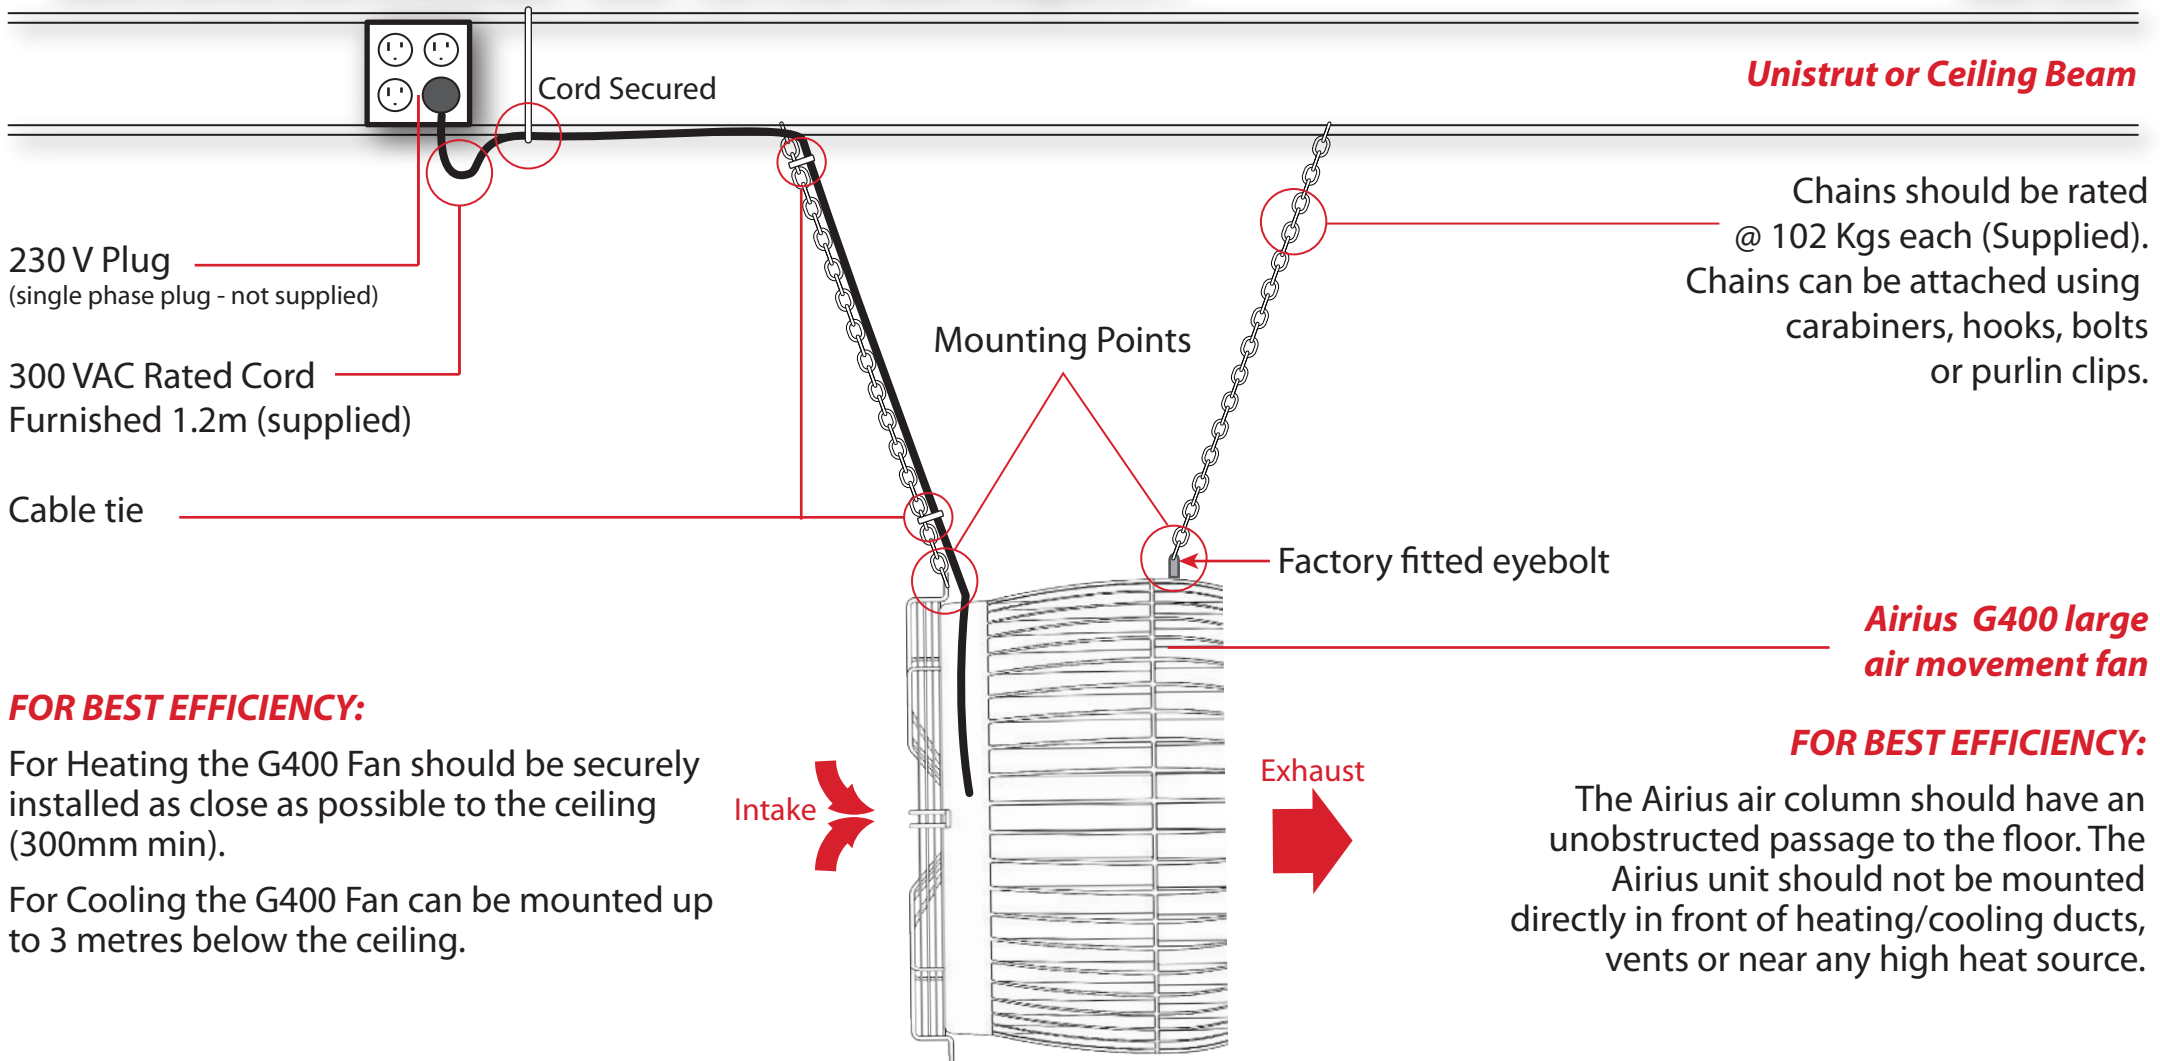

For Cooling the G400 Fan can be mounted up to 3 metres below the ceiling.

FOR BEST EFFICIENCY:

The Airius air column should have an unobstructed passage to the floor. The Airius unit should not be mounted directly in front of heating/cooling ducts, vents or near any high heat source.
