What We Do

Industrial Installations

Airius Electrical Contractors (AEC) have extensive experience working in many different Industrial Environments, from Manufacturing and Engineering to Food Processing and Chemical Electroplating Works. We have undertaken work in all types and sizes of factory environments, from small industrial units to the biggest plants for leading PLCs.

Testing and Inspecting

As an NICEIC Approved Contractor all work undertaken by AEC will be supported by an official NICEIC Test Certificate, giving you peace of mind and confidence in the quality of works. AEC can provide electrical installation condition reports to ensure your electrical infrastructure is in good working condition.

High Level Works

No building is too small or too large for AEC. We have invested heavily to make sure we have the correct equipment for just about any installation, ensuring we can offer the most competitive prices for all high-level work. We have scissor lifts and mobile scaffold towers which are transported in our custom made heavy duty trailers.

Retail & Commercial works

AEC offer flexible installation times to suit your hours of working for all types of office and retail store rewires and refits. Warehouses and distribution buildings are no problem, with tailored solutions to fit your budget.

Area's covered by AEC

Bournemouth | Poole | Christchurch
 Ringwood | Ferndown | Wimborne
 Fordingbridge | Downton | Southampton
 New Forest | Winchester | Dorchester
 Shaftesbury | Salisbury | Weymouth
 Yeovil | Andover.

Trouble Shooting, Rewires & Additions

AEC can investigate electrical problems and undertake work from the smallest 13A socket to a complete office renovation or factory rewire. Domestic projects undertaken on request.

Distribution Board Changes

If your distribution board is out of date, needs upgrading, is not big enough or unsuitable for your needs, AEC will fit new or upgrade your existing board to suit your requirements.

Past Clients

Rolls-Royce

Basildon Council
 BASILDON • BILLERICAY • WICKFORD

“ The Airius Electrical Contractors team installed 76 De-stratification fans in one of our sites in Filton. They all conducted themselves impeccably and the installation was of high quality. We were very impressed with their safe systems of work. ”

- Rolls Royce

“ Excellent quick turnaround, Fans installed within a day. Thankyou. ”

- NHS

“ We are very happy with our new installation in our factory and have no complaints. We would highly recommend Airius Electrical. ”

- Applied Laser Engineering Ltd

“ These guys are super-efficient, very professional and offer service with a friendly smile. They have done a fantastic job at our recently renovated laboratory. The lighting has never been better and the work done was to the highest of standards. They even helped us mount our new TV onto the wall which we were struggling to do. Trust me you can rely on Lee and Craig for your electrical needs. ”

- Wessex Dental
